1,000kg Cable Drum Stand

This cable drum stand has a maximum spindle capacity of 1,000kg. It suits cable drums core size 46mm, maximum drum width of 900mm and a maximum drum diameter of 1,300mm.

The 1,000kg cable drum stand can be fully disassembled for storage or ease of transportation. It is available assembled or as a flat pack. We also offer an optional bolt-on forked assembly, and brake assembly.

All of our cable drum stand designs are verified using Finite Element Analysis (FEA), manufactured and tested to meet industry standards. They are Built Tough and Designed to Last!

Standard Inclusions:

- A light bolt together design which is easy to assemble, store and transport.
- Heavy duty steel construction.
- All components are grit blasted and primed with two-pack epoxy primer and finished with heavy-duty two-pack epoxy polyamine coatings.
- Rated lifting lugs on the spindle to facilitated drum replacement
- Rated lifting points on the frame to allow the drum stand to be positioned on site (Unloaded)
- Tapered spindle cones to allow various drum core diameters.
- Spindle clamps to lock various size drum widths in place.
- Mounting holes are incorporated in the base to allow the frame to fastened to a structure.
