Quick Hitch Capstan Winches

Neumann Equipment quick hitch capstan winches are specifically designed to fit a range of excavators, backhoes, or bobcats. The capstan winches are typically used for electrical contractors to enable them to easily pull cables through conduits. They are manufactured from high quality components for rugged conditions, providing years of dependable service.

All of our quick hitch capstan winch designs are verified using Finite Element Analysis (FEA), manufactured and tested to meet industry standards. They are Built Tough and Designed to Last!

Standard Inclusions:

- Maximum line pull of 3 tonne.
- Capstans are machined from billet aluminium; standard capstan size is 155mm diameter.
- Geroller style hydraulic motor.
- Fabrication from carbon steel.
- Maximum line speed of 15 meters per minute.
- All steelwork is grit blasted and primed with two-pack epoxy primer and finished with heavy-duty two-pack epoxy polyamine industrial coatings.
- Operation and maintenance manual.

Available Options:

- Pressure gauge with calibrated kN/kg bezel to indicate line pull.
- Optional capstans sizes include 125, 175, 200, 250 & 300mm diameters.
- Quick hitch mounting bracket to suit your machine.
- Port mounted crossline relief manifold to limit overpressure conditions.
- Fitment to your machine.
- Custom paintwork to match your machine.

Specifications:

Model Number	QHCW3000
Maximum Line Pull	3,000 kg
Capstan Diameter	155 mm
Capstan Speed	28 rpm
Maximum Line Speed	15 m/min
Hydraulic Motor Size	949.5 cc
Hydraulic Pressure	197 bar
Oil Flow Required	27 l/min
Weight – Bare	170 kg
