Barge Winches

Neumann Equipment barge winches are designed and manufactured from high quality components for marine environmental conditions, providing years of dependable service. We specialise in custom built barge winches to satisfy vessel specific requirements that meet relevant marine industry standards.

These custom-made barge winches suit a variety of barge applications, including:

- Loading doors/ramps (lifting/hoisting compliant).
- Hauling equipment.
- Barge positioning.
- Vessel anchoring and securing.

All of our barge winches are designer verified using Finite Element Analysis (FEA), manufactured and tested to meet marine industry standards. They are Built Tough and Designed to Last!

Standard Inclusions:

- Reduction style gearboxes to suit specific vessel requirements.
- Electric or hydraulic drive motors to suit specific application.
- The barge winch drum is supported with a fully sealed self-aligning outrigger bearing.
- Spring-applied hydraulic/electric release failsafe brake.
- Rope termination clamp to suit steel or Dyneema rope.
- The base and drum are fabricated from carbon steel as standard.
- All components are grit blasted and primed with two-pack epoxy primer and finished with heavy-duty two-pack epoxy polyamine marine coatings.

Available Options:

- Line pull capacities – up to 50,000kg.
- Hauling line speeds – up to 100 metres per minute.
- Stainless steel construction.
- Optional dual-purpose winch using side mounted gypsy.
- Freewheeling gypsy to deploy the anchor.
- Optional capstan (windlass) waist size – up to 450mm diameter.
- Gypsy and capstan (windlass) heads can be cast in either SG iron or manganese bronze.
- Torque limiting clutches.

Please contact us by phone or email to discuss your barge winch requirements.
