Cable Drum Stands

Neumann Equipment manufactures a range of standard cable drum stand units designed to hold electrical cable reels. A bolt together style for 0.5 to 5 tonne spindle capacity, and a fabricated style for all cable drum stands for drum weights of over 6 tonnes.

The bolt together style units have the advantage of being dis-assembled to save on transport and storage.

Cable drum stands, capable of handling drums up to 100 Tonnes, can also be custom-made to suit your requirements.

All of our cable drum stands designs are verified using Finite Element Analysis (FEA). They are Built Tough and Designed to Last!

1 to 100 Tonne Cable Drum Stands include:

- Shaft support bearings,
- Fabricated from grade 250 carbon steel,
- Rated lifting lugs on the spindle to facilitated drum replacement
- Rated lifting points on the frame to allow the drum stand to be positioned on site (Unloaded)
- Tapered spindle cones to allow various drum core diameters.
- Spindle clamps to lock various size drum widths in place.
- Mounting holes are incorporated in the base to allow the frame to fastened to a structure.
- Heavy duty industrial two-pack epoxy protective coating.

Standard Range of Cable Drum Stands in stock:

Model Number	CDST500	CDST1000	CDST5000	CDST12000
Type (Bolted or Fabricated)	Bolted	Bolted	Bolted	Fabricated
Maximum Spindle Capacity	500kg	1,000kg	5,000kg	12000kg
