Windlass Anchor Winches

Neumann Equipment Windlass Anchor Winches are designed and manufactured from high quality components for extreme environmental conditions, providing years of dependable service. We specialise in custom built Anchor Winches to satisfy vessel specific requirements that meet rigorous NSCV compliance. These custom-made Anchor Winches suit a variety of vessels and anchoring requirements.

All of our Windlass Anchor Winches are designer verified using Finite Element Analysis (FEA), manufactured and tested to meet marine industry standards. They are Built Tough and Designed to Last!

Windlass Anchor Winch Configurations:

Our Windlass Anchor Winches are available in two basic configurations:

- Chain Gypsy Style, where the gypsy retrieves the chain and feeds the chain through a spurling tube into a chain locker below deck.
- Drum Style, where the rope and chain are stored on the drum.

Drum Style Windlass Anchor Winch

Standard Inclusions:

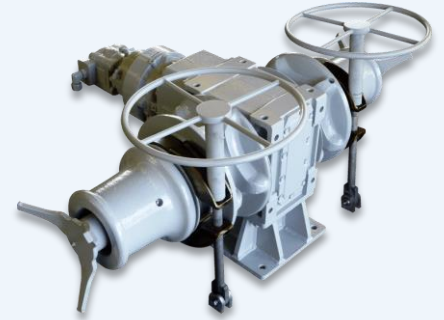

- Stainless steel main shaft.
- Gypsy brake bands are fabricated from stainless steel grade 316 with bonded linings.
- All components are of high quality for many years of service.
- All components are grit blasted and primed with two-pack epoxy primer and finished with heavy-duty two-pack epoxy polyamine coatings.

Available Options:

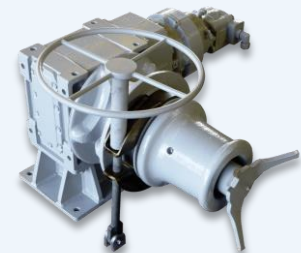

- Line pull capacities – up to 25,000kg.
- Hauling line speeds – up to 100 metres per minute.
- Studlink or shortlink chain – up to 34mm.
- Capstan (windlass) waist size – up to 450mm diameter.
- Gypsy and capstan (windlass) heads available in SG iron or in bronze.
- Drive motor types – electric or hydraulic drives.
- Hydraulic motors – motor type to suit requirements.
- Reduction gearboxes – gearbox type to suit requirements.
- Torque limiting clutches.
- Freewheeling gypsy to deploy the anchor.

Please contact us by phone or email to discuss your windlass anchor winch requirements.
